

SHAMEEM E

SOFTWARE TEST ENGINEER

| 9952524299 | shameembrahim1992@gmail.com

SUMMARY

To become a successful professional and to work in a reputed organization which will help me deliver my best and upgrade my skills in engineering and meet the demands of the organization.

PROFESSIONAL EXPERIENCE

- ✓ Having 4 Years of Experience in Software Testing as both Manual and Automation testing
- ✓ Expertise in Understanding and Analyzing Test Requirements, Tracking changes and maintenance of Test Requirements.
- ✓ Well, acquainted with all phases of SDLC and STLC.
- ✓ Experience in Build Automation tools like Maven.
- ✓ Having good experience in automation frameworks such as Cucumber BDD, TestNG, Junit, POM and Data Driven Framework.
- ✓ Strong Experience in Automating Web Application Testing using Selenium WebDriver.
- ✓ Writing Test cases using Element locators, WebDriver methods, Java programming features and TestNG Annotations.
- ✓ Knowledge in Continuous integration tool Jenkins.
- ✓ Experience in Data driven Testing, Cross browser testing and Parallel Test execution using Selenium WebDriver and TestNG.
- ✓ Well Versed with Agile Scrum Methodology.
- ✓ Hands on experience in tracking and reporting of defects using Defect Tracking tool – JIRA
- ✓ Experience in working with Git and GitHub.
- ✓ Experienced in API Testing using Postman.
- ✓ Having Knowledge in API Rest Assured.
- ✓ Good Understanding of all web methods like GET, PUT, POST and DELETE.
- ✓ Extensive experience in the Execution of Test cases.
- ✓ Good working Experience in Regression, Negative, Smoke, Re-testing, Regression & Ad-hoc testing.
- ✓ Having 5 Month Experience in Mobile Testing(Appium).
- ✓ Process improvement activities, Analytical skills, Reporting, and Assisting to Manager.

- ✓ Detecting bugs & classifying them based on Severity, Priority.

WORK EXPERIENCE

- ✓ Worked as a Software Engineer in Segmap ICT Consulting And Solution Private Limited, Bangalore, from Jan 2019 to Till Date.

EDUCATION

- ✓ **Bachelor of Engineering (ECE)**, CSI Institute of technology, Anna University Chennai.

TECHNICAL SKILLS

Testing Environment	: Manual, Automation & API
Programming Language	: Java
Automation Testing Tool	: Selenium WebDriver
IDE	: Eclipse
Frameworks	: Cucumber, TestNG, Junit, POM and Data Driven
Build tools	: Maven
Version Control Tool	: GIT
Defect Management Tool	: JIRA
Domain Knowledge	: Banking and E-Commerce
API Testing	: Postman

PROJECTS

Project - 1

E-Commerce Domain - Paul smith (Jun 2021 to Till Now)

DESCRIPTION:

The Company's business consists of selling merchandise and services to consumers through its department stores, which utilizes applications for desktop, mobile and tablet devices. Applying 'Classic with a twist' design aesthetic to all kinds of designs from road vehicles to pens.

ROLES AND RESPONSIBILITIES:

- ✓ Worked on Automation Framework implementation using Page objects, Data Driven, Maven, Selenium Web Driver – Java and Cucumber.
- ✓ Prepare the automation script in selenium web driver using cucumber
- ✓ Developed BDD tests using Cucumber by writing behaviors and step definitions
- ✓ Developed required Selenium support code in JAVA for Cucumber
- ✓ Expertise in developing automation scripts in BDD format using cucumber and
- ✓ proficient in writing cucumber scenarios in GHERKIN format
- ✓ Created & Maintained Automation Selenium Automation Scripts for the Scrum Stories
- ✓ Developing new scripts, debugging and reviewing the automation test scripts.
- ✓ Preparing the XPATH and handling Dynamic Elements.

- ✓ Worked on Regression testing and Automation test execution in Electric Flow.
- ✓ Preparing XML files, Service Sheets and Data Sheets for Service Automation.
- ✓ Performing failure analysis and fixes for both UI Testing and Service Testing.
- ✓ Raise defects in JIRA during SIT and UAT cycles.
- ✓ Working in Agile environment and participates in Daily Scrum meetings.
- ✓ Prepare reusable components to improve productivity and maintainability.
- ✓ Executing checkout and check in the source code on Bit Bucket and integration through Electric Flow.

Project 2

Banking Domain - Sainsbury Bank (Mar 2020 – Jun 2021)

DESCRIPTION:

Sainsbury's Bank plc, trading as Sainsbury's Bank, is a British bank wholly owned by Sainsbury's, a national supermarket chain in the United Kingdom. The bank began trading on 19 February 1997 as a joint venture between J Sainsbury plc and Bank of Scotland. Sainsbury's took full ownership of the bank in January 2014. The bank's head office is located in Edinburgh, Scotland and its registered office in London, England. In 2017 it had over 2.1 million active customers.

ROLES AND RESPONSIBILITIES:

- ✓ Attend the BRI (Business Requirement Identification) meeting to understand the business Requirements.
- ✓ Coordinated with peers in the team for clarity on the requirements.
- ✓ Drafted Test Plan which included testing objectives, testing phases, scenarios and test environment after a thorough analysis of the business rules.
- ✓ Understand test plan document and analyses the schedule.
- ✓ Raise defect and follow up the defect.
- ✓ Writing test cases for scenarios wherever not able to automate.
- ✓ Developed test scripts using Eclipse, IDE and TestNG framework.
- ✓ Executed test scripts and analyzing the reports and fixing the issues.
- ✓ Generating reports and analyze them using TestNG.
- ✓ Maintaining Reusable methods.
- ✓ Actively participated in team meetings.
- ✓ Analysis of test requirement and automation feasibility with selenium java using cucumber framework.
- ✓ Worked on Parallel execution, Priority, cross browser testing using TestNG Environment, Java, Selenium WebDriver, Git, Eclipse

Project 3

Airline Domain – Air Baltic (Jan 2019- Mar 2020)

DESCRIPTION:

Air Baltic is a hybrid airline taking the best practices both from traditional network airlines and low cost carriers. In 2008, Air Baltic changed its operating model from a point-to-point carrier to a network airline making Riga a connecting hub.

ROLES AND RESPONSIBILITIES:

- ✓ Involved in Test plan, design and Test data, creating and reviewing peers test cases.

- ✓ Executed the test cases and raised the bug in JIRA.
- ✓ Preparing Defect Report and assigning the defects to developer to fix the defect.
- ✓ Retesting the cases where defect has been raised and update the status.
- ✓ Send Daily Report to Project Manager.
- ✓ Performing functional testing on the critical modules.
- ✓ Maintaining the Traceability Matrix, Test Data Matrix and Status Report related to Project
- ✓ Creation of Test Data for Member data's according to the scenarios.
- ✓ Supported End to End testing for downstream systems.
- ✓ Prioritization and Communication among Onsite and Offshore Team Members.
- ✓ In this project, we used to attend daily scrum calls with Business and Partner Teams where we will communicate the tasks done for the day, open defects and Risks and Issues.
- ✓ Responsible for managing the team and reporting the progress to the higher management team.
- ✓ Reported Test Progress on daily basis with prioritized issues and risks to avoid major blockage and Back Logs.
- ✓ Writing test cases using excel and uploading in maestro (defect internal tool) along with evidence.
- ✓ Profile details, Medical and coverage plans, will be tested.
- ✓ Hands on experience in the types of testing like System Testing, Regression Testing, Functional Testing, Integration Testing and End to End Testing, Sweep testing.

DECLARATION

I hereby declare that all the above furnished information is true to the best of my knowledge.
